

RUBRIC FOR LIGHTWEIGHT RCM REPORT – REPLACEMENT

Validating *paired* reports (QC & QA) – 8 Aspects & key evaluation items per each.

Weighting applies. *Two* reports along with *two* AI notes and *two* presentations submitted in *one* zip file.

- **Combined Executive summary** – correct and CRaM *content*, covering both User story and UseCase 2.0 RCMs.
- **UStory User story** – *three* correct CRaM stories; describe *effective writing convention* used; and, show *reference in PD* for each User story.
- **UStory Conversation** – IAW *one* User story only, explain *info* that developer might need to clarify with stakeholder before conducting dev.
- **UC UseCase diagram** – draw *one* diagram for complete sw IAW correct alignment to *GPV*. (Don't exceed *seven* use case ovals. KIV how to uncover walking skeleton and MVP within *one* of all use cases. Can reuse GPV-aligned diagram or product goals from SRS.)
- **UC Priority** – within *one* of all use cases, define *one each* of CRaM *Walking skeleton* & *MVP*; and, *reference* use case for each. (These are not stories.)
- **UC Story** – IAW priority use case, *max three* correct CRaM *content*. (One *main* scenario, plus alternative(s). Also, use *Alister Cockburn writing convention*.)
- **UC Auxiliary detail** – IAW priority use case, correct CRaM *content*. (Use *template* from LS.)
- **UC Conversation** – IAW Stories & Auxiliary detail, explain any further *info* that developer might need to clarify with stakeholder before deriving Slices.
- **UC Slice** – *one* each for Walking skeleton & MVP. (Use *template* from LS.)
- **Combined Sign-off** (assume ready for submission to *customer* PC) – *PM's signature*.
- **Addenda** – IAW *Glossary*; correct addenda *kind* ; and, correct *F&S*. Content linked to base Aspect.

Assignment of weighting to Aspects

Lightweight RCM report (User story & UseCase2.0 combined).

Weighting	Aspect
PK	Progenitor
PK	Org & styling
PK	Max pages
PK	Declarations
PK	Addenda
DBK	Combo Exec summary
DDK	UStory User story
DBK	UStory Conversation
