Declaration Statement

I, Muhammad Ridwan Putra Jasni, acting as the authorised customer representative, declare that one or more expected process artefacts required under QA protocol could not be supplied at the time of audit response.

The affected artefacts, reasons for non-retrievability, and any available partial/substitute evidence are listed below.

Artefact Ref	Artefact Description	Reason Non-retrieveable	Partial/Substitute Evidence
QA-E02	Pre-IRC written plan (agenda, printed chat log, task list, or prior checklist) demonstrating that the Breakdown activity was planned before execution, not conducted ad hoc.	The original pre-IRC planning artefact was not retained in a retrievable form and cannot be produced at the time of this declaration.	None available.

This declaration is provided for QA closure in circumstances where customer-side process artefacts cannot be produced. I confirm that this statement is true to the best of my knowledge.
